

# THE VINTAGE CARAVAN

Made in Iceland  
Modern Prog-Classic Rock

## Band description:

THE VINTAGE CARAVAN - Icelandic Prog/Classic Rock with a poppy breeze. This young Rock 3-piece hailing from the greater Reykjavik is known for their energetic stage performance and incredible musicianship, and has been very active for the past 9 years. Catchy Modern Prog Rock would be the fastest way to describe the band, but actually there's way more to it! After touring non-stop over the past years, The Vintage Caravan has become an established headlining band in Europe, UK and South America, performing at the biggest Rock/Pop festivals across Europe and selling out numerous club shows across Europe when they go out!

THE VINTAGE CARAVAN latest album 'Monuments' was released on April 16, 2021 via Napalm Records. Iceland's biggest Rock trio incorporates a fountain of modern influences mixed with Classic Rock reminiscences to create an addictive sound all their own. After countless high-voltage live performances at festivals such as Wacken, Hellfest, Werchter, Roskilde and touring with Opeth, Europe, Blues Pills, among many others, the Icelandic band's new full-length impressively demonstrates that they have matured both musically and lyrically, accented by bold, nostalgic nuance. Virtuoso '70s-inspired guitar ruminations encounter an irrefutable mixture of fresh elements and

psychedelic, progressive and blues rock trademarks on Monuments, radiating the soul of some larger-than-life bands of the past as these youngbloods breathe new life into a classic formula.
